## Mawrter of the Month

Sara Kim is the Off-Campus Representative, a guide for students in the process of living off campus and bringing to light circumstances that make it difficult for a student to live off campus. Since such problems don't arise so often, her goal in the meantime has been to try and unite non-residents together as they tend to be more distanced from campus and less involved in traditions. This is even more important this year because many students were placed in off-campus housing due to the closing of Haffner. As for Sara, she is a chemistry major who likes to draw and play instruments in her free time. Don't forget to congratulate Sara when you see her around! Thanks of being an awesome Mawrter in all that you do for us, Sara!
